

Intermediate Architect

We are looking for a talented and dynamic Intermediate Architect to join our team.

You strongly believe in serving those you work with a high level of integrity, quality, and excellence. You are passionate about design and developing drawings to the highest quality. You are organized, detail oriented, and solutions focused. As a highly engaged team member, you understand the importance of building trust and working collaboratively.

Your Contribution

The focus of this role is to assist the Senior Architects in the production of design and drawings for all phases of the job and a wide range of activities including the following:

- Design development, technical development, and documentation of projects through all phases in a timely and orderly manner, and with the highest graphic quality
- Support other team members to evaluate and determine project requirements, ensure work is completed accurately.
- Using Revit, Rhino and Autocad, produce design development and working drawings of high quality
- Understand and assist in the development of specifications
- Assist in managing junior architects.
- Work with consultants to ensure tight coordination of all drawings and Revit Models.
- To assist in construction administration of projects

What You Bring

- A minimum of 5 to 10 years of post-graduate experience, recently registered or actively working toward registration
- Technical expertise in consultant coordination and developing specialized details for unique conditions (i.e. envelope, acoustic, etc.)
- Strong passion and proficiency with Revit, Autocad and Rhino
- Demonstrates exceptional knowledge of architectural design principles and procedures.
- Experience working on institutional, cultural, and theatre/concert hall or research lab projects is a strong asset
- Preference given to Architects with construction administration experience
- Excellent interpersonal and communication skills (written and verbal)
- Thrives in fast paced and constantly changing creative and design environments

- Highly motivated, self-directed with the drive to get things done on time or ahead of schedule
- Strong time and project management skills and highly organized
- Ability to see and predict potential problems and find solutions
- Passionate about learning new technologies and systems and confident in using MS Office and other relevant software
- Experience from a leading Canadian or International architecture office
- A strong team member with a collaborative and supportive working style

About Bing Thom Architects

The creative team of professionals at Bing Thom Architects (BTA) designs a wide spectrum of projects worldwide from single-family residences to planning entire cities. The firm's philosophy is based on a fundamental belief in the power of great architecture to transform, not only the physical but also the economic and social conditions of a community. The firm has been the recipient of numerous honors and awards, including the Architectural Firm Award from the Royal Architectural Institute of Canada.

The culture at BTA is team oriented, collaborative, and creative. The pursuit of excellence and service is the key to our success. In addition to creating opportunities to work on amazing projects and clients, we offer health benefits, transit benefits, social events, in-house training, and development programs, and educational assistance.

The office is located in the West End of downtown Vancouver, accessible to public transit (including bus lines and the Yaletown-Roundhouse Canada Line station) and across from Granville Island.
